

WELCOME TO THE COF GIRONA WEBSITE.

From the Girona College of Pharmaceutics (COF), we would like to welcome you to our website which we hope will be a quick, useful information tool, above all for the emergency services of the province, along with offering information regarding various topics of health: advice, health campaigns, health interest addresses...

To access the information about the pharmacies on duty in our province, you just have to click the icon named "Farmàcies de guàrdia" (Pharmacies On-Duty), and then choose the town you are interested in. Once the area has been selected, the calendar corresponding to the month in progress will appear on the screen. If you click the specific day that you wish for your consultation, the name of the pharmacy on duty for emergencies will appear on the right-hand side of the screen.

The on-duty pharmacy provides a service in the case of a health emergency, which must always be accompanied by the corresponding medical prescription (doctor's note).

Also, in those situations in which it is possible to relieve or lessen very painful symptoms, in the view of the pharmacist and according to the current sanitary regulations, a prescription or reference from a doctor will not be necessary.

This service is provided without any kind of tax supplement.

According to the current regulations, the Emergency Services follow the guidelines below:

DAY-TIME DUTY. From 9.00hrs (Morning) until 22.00hrs(Evening)

NIGHT-TIME DUTY. From 22.00hrs (Night) until 9.00hrs of the following day

LOCALIZED DUTY.

In some cases, because of the higher frequency of the duties, the pharmacist is not always required to be physically present in the on-duty pharmacy. In these cases, one must ring the bell, use the interphone or contact by telephone. It is also possible that in certain towns, at night and for security reasons, it is recommended to contact the Local Police.

Once alerted through the above-mentioned means, the pharmacist will attend the pharmacy in a short time.

We hope that the information you find on our website will be of use to you.

Applicable Legislation

- **Llei d'Ordenació Farmacèutica de Catalunya 31/1991.**
- **Decret 321/1996 sobre horaris d'atenció al públic, serveis d'urgència, vacances i tancament temporal voluntari de les oficines de farmàcia.**
