Welcome to the 13th annual edition of **Music in Catalonia**, a guide to Catalan musical companies currently creating interesting work available for international exposure.

Music in Catalonia is intended to be a useful working tool for international promoters and companies. A total of almost 140 Catalan firms working across the musical world have been included in this year's directory.

All companies included here have expressed their interest in international business, and have enough administrative and creative capacity to support the demands of international partners.

As ever, this edition of **Music in Catalonia** wishes to mirror the diversity and the strength of the Catalan music scene, and to complement the efforts made by

the sector regarding the international promotion of artists and companies. You will find these divided into different categories – record companies, publishers, management companies and bookers, venues, fairs and festivals and other musical companies. Entries are listed in alphabetical order to make it easier to locate them. The scheme in page 9 summarizes the companies' activities and the musical genres they specialize in.

However, this directory is not an all-encompassing list of every interesting Catalan company, and you can always turn to ICIC's offices in Europe – located in Barcelona, Berlin, Brussels, London, Milano and Paris – if you need information on other companies or for further details on the ones included in this guide. Of course, you can also contact us via email at **internacional.icic@gencat.cat**

Catalan Institute
for the Cultural Industries

The **Institut Català de les Indústries Culturals, ICIC** (Catalan Institute for the Cultural Industries) is a public institution, attached to the Catalan Government's Ministry of Culture and the Media, that is charged with promoting and fostering the development of the Catalan cultural industry. ICIC offers support to companies in all cultural fields: music, theatre and performing arts, audio-visual, publishing and media, and visual arts.

Since 2005, the Promotion Department has been offering support to the production of professional projects and their promotion abroad, through its access to international markets via its network of offices around Europe. Its general objectives include, amongst others:

- Providing business information, advice and contacts to both Catalan and foreign professionals and companies.
- Supporting Catalan cultural companies that are looking to develop their business internationally.
- Increasing the level of international trade and exchange involving creative businesses, by supporting and assisting those companies wishing to participate in key international fairs and exhibitions and drawing up specific industrial strategies, policies, programmes and activities with the aim of developing new opportunities abroad.
- Publishing catalogues and other marketing tools for the Catalan cultural industry, thus increasing its international visibility and recognition.
- Developing general policies for the cultural industries in co-ordination with the cultural industry trade organisations, especially with regard to initiatives designed to promote the exporting of Catalan cultural products and the opening up of new markets.
