

CENTRE AUTONOMISTA DE DEPENDENTS DEL COMERÇ I DE LA INDÚSTRIA

99065

CADCI

The CADCI is a group of individuals and organisations related to the Catalan business and industry sector.

From its foundation the CADCI centre has sought to become the backbone of the sector with the presence and capacity to wield positive influence to promote the Catalan market. The CADCI is a firm advocate of the added value in the Catalan business sector as a part of today's transnational environment.

At present our board of directors is formed by an interdisciplinary team of experts, all with the same goal: that of making Catalan business a reference for the innovation and quality in our society, renewing the authority and the symbol of the Catalan businessman in a global market.

OBJECTIVES

Our group has marked a series of objectives in this new stage of development.

1. Our aim is to open ourselves to Catalan society today. We are creating an extensive network of connections in order to grow in terms of human and social potential.

Establishing a contact agenda in order to connect with the most important public and private agents in the business sector.

Constructing a working framework which covers the entire range of the sector; professional organisations, management bodies, trade unions and public bodies.

Participating in initiatives created in the heart of the sector and proposing projects of our own. Creating a feed-back of experiences with each CADCI member.

Improving our partners' range of opportunities.

2. 2. Creating a strategic plan for the future CADCI Business Schools, as training has always been a key factor in our work.

Offering a wide range of training services for CADCI members.

Aiming our institution more towards local areas while adapting a more international focus through the introduction of the latest technology and the classic business skills of management, negotiation and language fluency, etc.

Strengthening individual capacity using training innovation in order to transmit the empowerment to develop key individuals in the business world.

CADCI

3. Growing internally. Extending personal and professional projection through our team in the Catalan and global business arena.

Developing ourselves as a business cluster to coordinate the local and worldwide business interests of our partners using the latest technology and innovative training techniques.

4. To create a social outsourcing network which can be used by all members while providing resources for developing new personal objectives.

Managing and providing for the needs of our partners through our Services Section.

Our statutes speak of the dignifying the role of the businessman. This concept involves a dual training concept in the skills and talents which the sector requires; our desire is to transmit a new business empowerment which capacitates our members, helping them become key players in the business sector, and role models within in their own organisations.

Our aim is to make Catalan business a reference for the innovation and quality in our society, and renew the authority and the symbol of the Catalan businessman in the global market.
