

SUPORT A LA CREACIÓ. FIRATÀRREGA

Call for Participation 2024

Through FiraTàrrega's **Suport a la Creació** programme, we support processes that are in the phase of creation for the stage and in a contemporary language, with ingredients of research and innovation. We work to ensure the best possible relations between artists, professionals, the market, town and population. The Suport a la Creació programme is designed for the production, display and distribution of shows with special attention to street arts and/or non-conventional proposals.

Every year, we select projects that become FiraTàrrega co-productions. With these productions, we agree a calendar of residencies that take place in Tàrrega and/or in other places of residency complicit with FiraTàrrega. The organisation offers the companies the possibility of holding a rehearsal open to the town to be able to test the venue and the participation and/or reception of the audience.

Once the creation process is complete, the proposals will be performed at FiraTàrrega (September).
